**Developing innovative teachers  
to inspire future generations**

Excalibur TSA is a partnership of Primary & Secondary schools in Wiltshire, West Berkshire and Bristol.

The Excalibur TSA Marlborough hub works in collaboration with Bath Spa University to develop & deliver a cutting-edge, one year PGCE teacher training programme.

School Direct is for graduates who want hands-on training in a school. You'll feel part of our school family and get the chance to learn on the job in at least two different local schools, working with experienced colleagues and putting your new skills into practice from day one.
